PSYCHOLOGE-MATTERS

A DIGITAL NEWSLETTER FROM
THE DEPARTMENT OF PSYCHOLOGY AT UW-MADISON

Though many have tried to develop bias interventions that work, Patricia Devine, William Cox and colleagues have developed the **first and only training program known to produce long-term changes in bias**. Now, Cox is taking this evidence-based model of change to organizations looking to address inequity and build a better world. [Read more.](#)

Joe Austerweil challenges his students to consider how what they know about cognitive psychology can be applied to improve people's lives. For their final projects, **students showcased their creativity in addressing food waste, abuse, policing** and more with the knowledge learned in Austerweil's class. [Read more.](#)

Fifteen projects — from **improving doctor-patient communications for high-risk patients to engaging parents as interventionists to reduce children's racial biases** — have been chosen for the Understanding and Reducing Inequalities Initiative. [Read more.](#)

Nominate a Psychology Badger

Outstanding alumni are recognized annually by the department for significant contributions to the field of psychology and/or for using their psychology degree to impact and improve the world around us.

Submit a nomination today!
