

Get Psyched on Friday, 10/25

Kick off Homecoming Weekend by heading back to Brogden for **Get Psyched**, a FREE 1-hour event featuring 4 flash talks by psychology faculty and researchers on:

- personalized, smart recovery support for substance use disorders
- what words mean to babies
- mindfulness techniques to tackle unmet treatments needs in asthma patients
- why certain math concepts challenge kids more than others

Register today to Get Psyched with us!

UW Psych welcomes five new faculty members

This fall, the Department of Psychology welcomed five new faculty members with expertise in everything from **adolescent risk-taking** and **children's moral development** to **enhancing resilience** following exposure to traumatic events. We invite you to **get to know their work**.

Curtin wins \$3.2 million NIH grant to improve alcohol use recovery with AI-driven interventions

The grant will enable Curtin to develop a mobile app-based engagement system, guided by machine learning, to help individuals with alcohol use disorder stay engaged and improve their recovery outcomes. [Read more.](#)

This is a master's story

Caitlin will be writing something very exciting here.

Helping with Healing

This is a story about Kate Walsh. Or perhaps the video link here from L&S.

Join fellow "Flockstars" to help fuel UW Psychology's research and discovery

This October 24-25, share your Psychology Badger pride by adding a flamingo to Bascom Hill during **Fill the Hill!** Support for Psychology feeds groundbreaking research in mental health and human behavior, rewards student excellence, and provides necessary improvements to student spaces. **Learn how your gift advances UW Psych's research and learning.**

Make a plan to support Psychology during Fill the Hill!
