

## Psychotherapy & Assessment at the PRTC

The PRTC is a fee-for-service clinic & **does not** accept private insurance or Medicaid/Medicare.

The cost of therapy is determined using a sliding scale based on income and family size. Your session fee will be determined at the intake appointment.

The initial intake interview charge is \$30.00. Payment is required at the time of service.

Assessments and evaluations are billed at a set rate. Call for details.

PRTC services are available by appointment only.

PRTC **does not** provide emergency, walk-in, or psychiatric services.

## The PRTC

The PRTC is the major clinical teaching facility for the PhD program in clinical psychology at the University of Wisconsin – Madison. This not-for-profit clinic provides high quality mental health services to the community on a sliding fee scale.

The PRTC is open to individuals without regard to University affiliation, personal attributes, source of referral, or income.

All clients are treated by clinical or counseling psychology PhD students. Students are supervised by licensed psychologists.

## How to Access Services

**To access services, call the PRTC at 608-262-5925.**

The Assistant Director will talk with you about our clinic, complete a brief telephone screen, & schedule an appointment for you.

## Psychotherapy Services

Examples of common issues the PRTC treats include depression, anxiety, stress, substance use, adjustment problems, relationship problems, eating disorders, learning problems, parent-child relationships, and childhood/adolescent issues.

## Assessment Services

The PRTC provides assessment evaluation services for (1) Cognitive ability & academic achievement; (2) Learning disorders; (3) Personality & psychological functioning; and (4) Alcohol abuse.

## What is Psychotherapy?

Psychotherapy (i.e., “talk therapy”) involves working collaboratively with a therapist to reduce distress & learn effective coping skills.

The therapeutic relationship is a professional one & is very different from a relationship with a friend, partner, or parent.

Therapists provide a comfortable, nonjudgmental, & safe environment for individuals to share personal struggles, receive feedback, & learn skills to help overcome challenges.
